

Brady Rockwell

OWNER / GENERATOR SALES & INSTALLATION FOREMAN

With eight years of industry experience and as a 3rd Year Journeyman, Brady specializes in electrical work and generator installations. Having grown up around the trade with an electrician for a father, he developed a passion for the industry at an early age. Today, he oversees ERG's daily operations while leading the generator division and helping projects run smoothly from start to finish. Known around the company as "Mr. B," Brady enjoys seeing his team members grow and succeed in their careers. Outside of work, he spends his time with family, hunting, fishing, and beekeeping.

Nate Fingerle

OFFICE & SHOP OPERATIONS

Nate Fingerle plays an essential role in ERG's office and shop operations, helping keep daily activities organized and running efficiently. With three years of experience at ERG, he manages customer invoicing, answers phone calls, orders parts, and oversees inventory to ensure projects stay on track. Known for his strong organizational skills and attention to detail, Nate enjoys seeing operations run smoothly and helping create a positive experience for customers. Outside of work, he enjoys spending time with family, fishing, gardening, camping, hiking, and embracing all things outdoors.

Will Brovont

ELECTRICAL FOREMAN

Will Brovont is an experienced electrical professional who oversees daily operations and helps ensure projects are completed safely, efficiently, and to the highest standards. Passionate about the trade and committed to quality workmanship, he takes pride in supporting both customers and team members while helping projects run smoothly from start to finish. Will is dedicated to fostering a culture of professionalism, mentorship, and growth, and enjoys spending time with family, exploring the outdoors, and staying active in his community.

Tyler Lynch

ELECTRICAL FOREMAN

Tyler brings a strong work ethic, attention to detail, and a commitment to quality on every project. As a 2nd Year Apprentice with two years of industry experience, he has developed expertise in electrical installations and DataCom systems through hands-on training and his education at ABC Trade School. Tyler focuses on ensuring electrical installations are completed accurately, efficiently, and to the highest standards. He takes pride in staying organized, paying close attention to the details, and seeing projects successfully completed from start to finish. Outside of work, Tyler enjoys spending time with family and hitting the golf course whenever he gets the chance.

Steven Rockwell

FOUNDER OF ERG, ELECTRICIAN & ACCOUNTS PAYABLE MANAGER

Steven "Rocky" Rockwell is the founder of ERG and a Journeyman Electrician with more than 36 years of experience in the electrical industry. Having spent most of his life working in the trade, he brings extensive knowledge of electrical installations and a deep commitment to quality workmanship. At ERG, Steven oversees accounts payable and takes great pride in watching the company continue to grow and succeed. Outside of work, he enjoys regenerative gardening and spending time with his dog, Rocko.

Chad Mohler

ELECTRICAL PROJECT MANAGER & ESTIMATOR

Chad brings six years of industry experience and a strong background in electrical installations, project management, and estimating. A 3rd Year Journeyman who developed his skills through hands-on training and ABC Trade School, Chad plays a key role in overseeing electrical crews, coordinating projects, meeting with clients and contractors, and preparing accurate estimates. He is dedicated to ensuring projects run smoothly from start to finish while building strong relationships with customers and delivering exceptional service. Chad enjoys getting to know clients, understanding their needs, and making sure they are satisfied with the finished result. Outside of work, he enjoys spending time with family, fishing, boating, and tackling home improvement projects.

Hunter Miller

GENERATOR SERVICE

Hunter Miller is a first-year apprentice who specializes in generator installations, maintenance, and repair. Through hands-on training and his studies at ABC Trade School, he is building a strong foundation in the electrical industry while supporting generator installation projects and performing annual maintenance services. Hunter enjoys meeting customers and embraces the challenges and continuous learning opportunities that come with working in such a diverse field. Outside of work, he enjoys spending time with family and participating in outdoor activities.
